NORTHEAST OHIO
REGIONAL DAIRY

Grow them well. Management tips from birth to weaning.
Mike Van Amburgh, Ph.D.
Professor of Department of Animal Science at Cornell University
And Bill Weiss Ph.D. Professor of Animal Science at OSU

Wednesday, February 20, 2019

Fisher Auditorium/Shisler Center
OARDC/ATI Campus
1680 Madison Avenue
Wooster, Ohio 44691

Killbuck Valley Veterinary Medical Association
Mike Van Amburgh is a Professor in the Department of Animal Science at Cornell University. Mike currently leads the development of the Cornell Net Carbohydrate and Protein System, a nutrition evaluation and formulation model used worldwide and through that effort is focused on enhancing the efficiency of nutrient use by ruminants to improve the environmental impact of animal food production. A significant focus of his current work is to understand whole animal and ruminal nitrogen metabolism and amino acid supply and requirements to enhance the development of the Cornell Net Carbohydrate and Protein System. Further, his group is active in developing methods to better describe the interaction between forage and feed chemistry, rumen function and nutrient supply to compliment the model.

**Featured Speaker**

Mike Van Amburgh
Grow them well. Management tips from birth to weaning.

**Schedule**

9:00 - 9:55 AM:  Registration, Refreshments & Visit with Exhibitors
