## WAYNE COUNTY FAIR

Ohio's Foremost Agricultural Fair  
September 12 - 17, 2020

### JUNIOR FAIR SALE INFORMATION

We have all felt the stress COVID-19 has put on our personal and professional lives. An industry that has strongly felt the impact is agriculture, specifically our custom meat processors. They have worked tirelessly to keep the food chain open. With their schedules and processing capacity being limited, we have worked together to develop a plan to ensure that our buyers can still be served with the same quality experience and products they expect.

If you are intending to purchase an animal and have it custom processed (i.e. keep the meat) a custom processing slot must be reserved in advance for all steers, swine, lambs, and goats. These slots are limited and non-transferable. If you purchased an animal last year, you should have received a buyer's letter explaining the process of how to secure your processing slot.

If you are a new buyer, please contact our Junior Fair secretary (wcjrfair@gmail.com) and we will send you a new buyer's packet, which will include information about reserving a custom processing slot. We are always excited to add new buyers to our sale to support the youth.

The poultry and rabbit sale will function as in previous years. No processing slots have to be reserved to have your meat processed. You can bid and turn or keep your animals as normal. Poultry and rabbit pick up date will be September 28 at 5pm at the Junior Fair Office.

The dairy products auction will also be conducted as it normally is. It will start at 11:00 am on September 16<sup>th</sup> in the Coliseum and feature 20 items with all the proceeds going towards the dairy exhibitors.

*We hope to see you at our fair this year!*
