

American Dairy Association (ADA)

The dairy supply chain has been identified as an essential critical infrastructure and as such, employees have a special responsibility in these times to continue operations. To assist as COVID-19 related movement restrictions are implemented, [customize this template](#) for your farm and provide a copy to your employees for use when commuting to work.

ADA MidEast is encouraging all dairy farmers to read the [Dairy Farmer Handbook on Coronavirus Prevention and Management](#). This handbook outlines COVID-19 symptoms, dairy farm workforce preventative measures, employer action steps and answers to frequently asked questions.

The CDC provides clear guidance about preventing infection in both [English](#) and [Spanish](#). It also provides a number of [printable factsheets and posters](#) in English and Spanish suitable for use in the workplace.

Below are additional resources that dairy farmers are encouraged to review and use as appropriate:
