

# THANK– YOU !

Known for being one of Ohio’s foremost agricultural fairs, the Wayne County Fair can also boast as being one of the “Greenest” county fairs. For the past five years, the Wayne County Fair has been increasing their recycling efforts around the fairgrounds. Since 2010, the Fair has been able to remove over 34 tons of cans, bottles, cardboard and food waste from the waste stream and divert it from local landfills. In 2014, the Wayne County Fair stepped up its Green efforts by collecting food waste from concession vendors and collected it for compost with local business Paradise Lawn Care.

We are extremely happy to offer this 4-H sponsorship knowing that it was actually asked for, and that our local youth and citizens wanted to help with such an important and enormous undertaking.

We have listened to our vendors and the public and based on their views have provided three different types of recycling containers for any club or individual to sponsor.

These containers will have either stickers with a club name or logo on them or have signs with them– depending on which option or model is chosen.

We will do our best to accommodate your wishes, and we thank you for supporting the Recycling Committee at the Wayne County Fair!

## Wayne County Fair Jr. Fair Board 4-H Recycling Sponsorship

Please let us know what your Club Name is or what name you would like as signage for your sponsorship. This is for the stickers or billboard on your Recycling Container. These are included in the price. Thank you!

*... to my club, my community,  
my country, and the world.*
