### **2022 CUSTOM MEAT PROCESSING SLOTS RESERVATION INFORMATION**

Again for 2022 buyers are encouraged to reserve their custom processing slots in advance.

**IN ORDER TO GET OR DONATE THE MEAT FROM THE ANIMAL YOU BUY  
YOU SHOULD RESERVE A SLOT TO HAVE THE ANIMAL CUSTOM PROCESSED  
By September 1st**

*\*There are likely to still be slots available at the auction during the fair, but if you want to guarantee a slot with your preferred custom processor you should reserve your slot by September 1*

Your processing slots may be transferred to another buyer or turned back in at the Buyer Registration table if you do not end up needing to use them. We encourage you to only sign up for a slot if you have full intention to purchase an animal for processing. We have nearly the same number of custom processing slots available as in years past.

Reserve your Custom Processing Slots Online Now at: <https://go.osu.edu/wcjfsale2022>

When you arrive at the sale you will be given a special card for each of your processing slots. When you are bidding on an animal and win the bid you MUST hold your special card in the air for the auctioneer's ringmen to collect. This card will contain your name and your processor information, the staff will add on to it the animals ID.

The custom processor will be given your name, phone number, and species you requested to be processed before the fair starts. Please be prepared for the processor to contact you to ask you for instructions on how you want your animal processed. This makes the process more streamlined for all parties involved.

*Poultry and rabbit processing will be conducted as normal. (you do not need to reserve slots)*

*The Dairy Products Auction will be conducted as normal.*
