REGISTRATION INFORMATION: The cost for 10 issues of the summer season IPM Newsletter will be \$30.00 payable at the beginning of the subscription. The newsletter will be mailed out bi-weekly and will feature in each issue currently what is happening out in the fields, with a special highlight feature in each issue. Will help you to learn how to use IPM on your farm to use chemicals in a more effective and timely manner, identify plant diseases, insects and weeds. Increase your knowledge and reduce guesswork.
