Welcome to Seasoned Newsletter #3. (If you missed the most recent one, it’s here.) This issue features recipes for canned chickpeas. They are great because they’re delicious, they’re very healthy, and they can always be on hand in your pantry. Here we combine them with canned tuna for a salad and roast them for a quick, very tasty snack. And speaking of snacks—because we know that spending lots of time at home can create a pretty constant desire to snack—we’ve also thrown in a recipe for another healthy favorite, Cinnamony Pepitas (pumpkin seeds). Plus we’ve got kitchen tricks, balance exercises—and a culinary crossword. (DON’T peek ahead at the last page.)

Let’s get started!
This flavorful (and healthy) dish takes only 10 minutes to put together, but plan ahead—it needs to sit for at least an hour to let the flavors meld. The good news is that you can also refrigerate it for up to 3 days, so it’s a great make-ahead meal. Check out the possible add-ins below.

**INGREDIENTS**
- 1 (5-ounce) can tuna in oil *
- 1 (15-ounce) can chickpeas, drained and rinsed
- 1 celery stalk, thinly sliced
- 3–4 scallions, greens and whites, thinly sliced
- 1 tablespoon olive oil
- 1 tablespoon red or white wine vinegar or lemon or lime juice, or more to taste
- ½ teaspoon kosher salt
- ¼ teaspoon black pepper

**INSTRUCTIONS**
1. Put all the ingredients in a medium-sized bowl and mix well. Taste and add more vinegar or citrus juice if needed.
2. Cover and refrigerate at least 1 hour and up to 3 days.

* If you prefer to used tuna packed in water, drain it and then add an additional tablespoon olive oil.

**Or You Could**
- Serve on a bed of lettuce, halved cherry tomatoes, and sliced celery.
- Stir in 1 tablespoon harissa, pesto, or olive paste.
- Add ½ English cucumber, thinly sliced, and/or 1 avocado, peeled, pitted, and cubed.
- Roll up in a wrap for a satisfying sandwich.
Roasted Chickpeas

This easy-to-make snack really satisfies that urge to crunch. Chickpeas are full of protein and nutrients, so they give you lots of great energy too. Eat them by the handful or try them on a salad instead of croutons. Make sure that you dry the chickpeas very well so they get crispy in the oven.

HANDS-ON TIME: 10 MINUTES     TOTAL TIME: 35–45 MINUTES     MAKES: 4–6 SERVINGS

INGREDIENTS

1 (15-ounce) can chickpeas, drained and rinsed
1 tablespoon olive or vegetable oil
1 teaspoon kosher salt
1/4 teaspoon cayenne pepper (if you like spicy)

INSTRUCTIONS

1. Turn on the oven and set the heat to 425 degrees.
2. Put a double layer of paper towels on the countertop, pour out the drained chickpeas, and roll them around to dry them well.
3. Put the chickpeas on a rimmed baking sheet, add the oil, salt, and cayenne (if you like), and toss well.
4. Put the baking sheet in the oven and roast until the chickpeas are crunchy and golden brown, 25 to 35 minutes, stirring halfway through to make sure they cook evenly.
5. Remove the baking sheet from the oven and set aside to cool. Eat the chickpeas right away or store in a covered container up to 2 days.

Or You Could

If you want to change up the flavor, substitute curry powder, ground cumin, ground coriander, smoked paprika, or any other spice of your choice for the cayenne.
Cinnamony Pepitas

This delicious, healthy, hard-to-resist, and easy-to-make snack makes the most of raw green pumpkin seeds without their shells, also called pepitas.

HANDS-ON TIME: 5 MINUTES      TOTAL TIME: 20 MINUTES      MAKES: 1 CUP (4 SERVINGS)

INGREDIENTS

1 teaspoon vegetable oil
1 cup green, hulled pumpkin seeds (pepitas)
¼ teaspoon kosher salt
1 teaspoon brown sugar
½ teaspoon ground cinnamon

INSTRUCTIONS

1. Put a medium-sized nonstick skillet on the stove, add the oil, and turn the heat to low.
2. Add the seeds and salt and cook, stirring frequently, until the seeds just begin to turn light brown, 12 to 15 minutes.
3. Add the sugar and cinnamon and cook, stirring, for 3 minutes.
4. Serve right away or store in an airtight container up to 1 week.

Exercise #1: Rock the Boat
Stand straight with your head level, your arms outstretched to the sides, and your feet hip-width apart. Put all your weight on your left foot and slowly lift your right foot up to the side. Hold that position for up to 30 seconds, then slowly lower your foot back to the ground. Transfer your weight to your right foot and repeat with your left leg. Start by doing this exercise five times per side.

Exercise #2: Wall Push-ups
Stand an arm's-length distance in front of an empty wall. Lean forward slightly and put your palms flat on the wall at the height and width of your shoulders. Keep your feet planted as you slowly bring your body toward the wall. Gently push yourself back so that your arms are straight. Repeat this 20 times, if you can.
Kitchen Tips and Tricks

Sometimes it’s not the big techniques, but the little tricks that count most in the kitchen. Here are a few we like that we learned either from experience or from other cooks.

**Clean Cutting Boards**
Bacteria can build up if you don’t properly clean your wooden cutting boards. Cut a lemon in half and dip the cut side into coarse salt. Use it to scrub your cutting board clean, then rinse. (This is a good use for lemons that you have already juiced.)

**Defrost Food Faster**
The safest way to defrost meat (or anything else) is in the refrigerator. Unfortunately, this can take anywhere from 8 to 24 hours. But you can cut that time by about 30 percent by putting the food on an aluminum baking sheet or, even better, in a cast iron skillet, and putting that in the refrigerator. Metals are great conductors of heat and will draw energy from the surrounding environment into your frozen food. This works particularly well with meat, but will also work well with soups, stews, and anything else frozen flat.

**Make Tomatoes Last Longer**
Place tomatoes stem side down when you store them. That way, air and moisture won’t be able to enter the stem scar, and they will last longer. Storing them at room temperature also makes them last longer.

Ohio’s SNAP-Ed and EFNEP Programs

SNAP-Ed
Ohio’s Supplemental Nutrition Assistance Program - Education is a nutrition education program serving low-income adults and youth throughout Ohio. It is a partnership between the Ohio Department of Job and Family Services and Ohio State University Extension. Its goal is to improve the likelihood that families and individuals who receive food assistance benefits (SNAP benefits) make healthy food choices and choose active lifestyles consistent with the current Dietary Guidelines for Americans and MyPlate.

SNAP-Ed programming focuses on Diet Quality including promotion of Physical Activity, Food Safety, and Food Resource Management. The dissemination of nutrition education is mainly achieved by classes which are scheduled throughout Ohio and in 88 counties.

Participants learn to select fruits and vegetables, whole grain, and low-fat dairy products for a healthy diet; to use limited resources to plan, purchase and prepare food for the family; to be physically active every day; and to store and handle food so it is safe to eat. In FY18, SNAP-Ed reached 436,272 adult and youth participants.

EFNEP
The Ohio Expanded Food and Nutrition Education Program serves limited resource adults who care for children in their homes as well as limited-income youth. The program utilizes interactive discussions and activities to guide participants through a series of community based workshops aimed at improving diet quality, food safety and physical activity. Adult participants also gain skills in food preparation and managing their food budgets. Youth programming is conducted in classrooms, after school programs or camps, and summer food feeding sites. During FY18, Ohio EFNEP reached 2,840 adult and 7,228 youth participants, with a total reach of 10,128 family members. The program is free and offered in 18 Ohio counties.

SNAP-Ed and EFNEP are equal opportunity programs. For more information about Ohio SNAP-Ed, explore go.osu.edu/snap-ed For details regarding Ohio EFNEP in your area, visit efnep.osu.edu Discover tips, wholesome recipes and more at CelebrateYourPlate.org

The Celebrate Your Plate site helps you budget for, plan, and create healthy, tasty meals. You’ll find recipes, shopping tips, cooking tips, and even tips on growing your own food. Plus, you can comment on recipes and read comments from others. Celebrate Your Plate is out and about in communities around Ohio – just look for the Celebrate Your Plate logo!

Family and Consumer Sciences
Ohio State University Extension Family and Consumer Sciences is an outreach arm of The Ohio State University. It is designed to translate research into education for Ohioans to help improve the quality of their lives and the environment in which they live. OSU Extension is jointly funded by federal, state, and county governments and private grants. Programs emphasize “empowerment through education.”
